PROFESSIONAL SUMMARY

BCom Econometrics graduate with 7+ years of professional experience in financial operations and a strong focus on Python, software development, data engineering, and data science. Hands-on experience building practical projects using Python, SQL, REST APIs, PostgreSQL, Power BI, HTML, CSS, Javascript, and Git/GitHub. Strong foundation in statistics, programming, data analysis, and problem-solving, with a focus on building reliable software and data-driven solutions.

TECHNICAL SKILLS

- **Programming & Web:** Python, JavaScript, HTML, CSS
- **Databases & SQL:** PostgreSQL, MySQL, SQL
- **Data & Analytics:** Pandas, NumPy, Power BI, Matplotlib, Seaborn
- **Development & Engineering:** REST APIs, ETL, Git, GitHub, VS Code, Jupyter, Linux, Docker
- **Cloud:** Azure — Foundational Knowledge

PROJECTS

Pokémon Data Engineering Pipeline | [View Repository](#)

Python | REST API | Pandas | PostgreSQL | SQL | ETL | Git/GitHub

- Built an end-to-end data pipeline extracting 1,351 Pokémon records from a REST API.
- Retrieved and processed JSON data using Python and the Requests library.
- Cleaned, transformed, and analysed data using Pandas and NumPy.
- Performed data-quality checks for missing values, duplicates, and invalid values.
- Designed and implemented a normalized PostgreSQL database for Pokémon, types, and abilities.
- Developed a Python ETL process to load transformed data into PostgreSQL.
- Used SQL for data analysis and relational querying.
- Used Git and GitHub for version control throughout development.

Personal Portfolio Website | [Live Site](#)

HTML | CSS | JavaScript | Git/GitHub | GitHub Pages

- Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript.
- Created pages showcasing projects, technical skills, and professional experience.
- Implemented website structure, styling, and interactive functionality.
- Managed source code using Git and GitHub.
- Deployed the website using GitHub Pages.

PROFESSIONAL EXPERIENCE

Freelance Software Developer & IT Hardware Technician

[Philacoding](#) | Jan 2021 – Present

- Develop software solutions and web projects for clients and personal development.
- Build practical applications while developing full stack software development skills.

- Troubleshoot software, hardware, and system issues.
- Provide technical support and repair laptops and mobile devices.
- Analyse technical problems and implement practical solutions.

Operations Consultant & Work Coordinator

[Allan Gray](#) / 2013 – 2019

- Managed high-volume investment processing, withdrawals, and benefit claims.
- Performed FICA checks, document validation, and discrepancy resolution.
- Coordinated operational workflows and worked to SLA requirements.
- Maintained accuracy, confidentiality, and professional client service.
- Resolved operational issues and collaborated with internal teams.
- Worked effectively in a regulated financial-services environment.

Intern

[Brandhouse](#) / 2011 – 2012

- Completed rotational training across multiple departments.
- Developed problem-solving, communication, and stakeholder-management skills.
- Participated in a Deloitte-facilitated consultation skills programme.

EDUCATION

🎓 BCom Econometrics

[University of Pretoria](#) / 2007 – 2012

Relevant Coursework: Statistics, Econometrics, Statistical Modelling, Time Series Analysis, Mathematics, Economics, and Machine Learning.

Leadership: Head Student, Soccer Coach, Statistics & Economics Tutor | Achievement: Golden Key Society

Matric

Siphesihle High School / 1999 – 2003

Mathematics: 93% | Accounting: 100% | Physical Science: 81% | Biology: 83%

CERTIFICATIONS & ACHIEVEMENTS

- PostgreSQL Certificate — Simplilearn
- Python 3 Certificate — Simplilearn
- Golden Key Society — University of Pretoria
- Honorary Leadership Certification — University of Pretoria
- Top Mathematics, Science & Accounting Pupil — Matric
